Over the years, our team remains committed to being your premier remote start solution.

We laid the foundation by focusing on:

• Industry leading solutions
• On time inventory
• Support second to none

This formula was designed so that you can easily manage your business and was further enhanced by the addition of dedicated technical and business development teams to Support you.

The past few years have also been focused on ensuring that you can build a strong and profitable business with the brands we offer. Our commitment has been to:

• **Increase** your margin through yearlong programs and minimal price increases.

• **Ensure** that the Compustar network is represented by trusted partners.

• **Implement** a Minimum Advertised Policy to support fair promotional activities.

Compustar has refreshed its remote line-up over the past two seasons by enhancing their aesthetics and performance, which we trust will offer a complete and reliable mix for your customer's needs. We also look forward to the upcoming launch of the Drone XC which will bring innovation to the telematics market by introducing a first-to-market dash cam to integrate with aftermarket remote start and security.

Our team will continue to be your premier remote start solution, you can rest assured that we are here to support you for the 2023/24 remote start season.

Much success over the next season.

# Audio Integration Solutions

iDatalink Maestro interfaces facilitate the installation of aftermarket radios while retaining the vehicle's factory audio features such as steering wheel controls, Bluetooth, and more!

## MAESTRO DSR1

ADS-DSR1

Universal DSP and amplifier replacement interface. Maestro DSR1 adds digital signal processing to most aftermarket amplifiers. Combines legendary Rockford Fosgate 3-SIXTY processor and Maestro AR to facilitate the replacement of many factory amplifiers.

**DSR1 can be tuned via Rockford Fosgate's PerfectTune app for iOS and Android!**

## MAESTRO AR

ADS-MAR

Universal amplifier replacement interface compatible with over 500 vehicles 2005 and up. Maestro AR connects to iDatalink-compatible Arc Audio, Audison, and Kenwood amplifiers to enhance sound quality in vehicles with high-end factory audio and infotainment systems or where radio replacement is not possible.

## MAESTRO SW

ADS-MSW

Maestro SW lets you easily retain factory steering wheel button controls and assign a secondary 'press & hold' function to any button when replacing your car radio for vehicles 1998 to date.

**Works with all vehicles with resistor-based steering wheel buttons.**

## MAESTRO RR2

ADS-MRR2

Advanced radio replacement interface compatible with over 3,000 vehicles 2003 and up. Maestro RR2 offers the same exclusive infotainment retention and exclusive screens as the Maestro RR while adding support for additional vehicles and enabling Bluetooth programming directly from your iOS or Android mobile device.

**Maestro RR works with all radios, however, only select Alpine, JVC, Kenwood, Pioneer, and SONY radios feature the iDatalink-compatible port to enable exclusive radio retention features with Maestro RR.**

## MAESTRO RR

ADS-MRR

Maestro RR connects to a wide range of iDatalink-compatible aftermarket radios to retain factory systems including steering wheel controls, media player, hands-free telephone, voice commands, and satellite radio modules for thousands of vehicle applications from 2003 and up.

**Maestro RR works with all radios, however only select Alpine, JVC, Kenwood, Pioneer and SONY radios feature the iDatalink-compatible port to enable exclusive radio retention features with Maestro RR.**

***Easy Web-Programming***

*Thanks to its patented visual web-interface, Maestro SW lets you easily choose your steering wheel and visually assign buttons.*

These products require vehicle-specific T-harness and aftermarket amplifier sold separately.
