

SB-POLE-F Series Extension Pole for Ceiling Mounts

Package Contents

- Pole (length varies by model)

Assembly

During ceiling mount assembly, thread the pole into the ceiling plate first, then to the mount assembly.

Tighten all set screws using the included hex wrench.

Optional: Route wiring through the pole and the wire access opening.

Warnings

Warning: This accessory has a maximum load of 91 kg (200 lb). Use with heavier than the maximum weight indicated may result in instability causing possible injury.

This accessory is designed for SunBriteTV ceiling mounts and accessories with 1½" - 11.5 NPT threads.

Read and thoroughly understand these instructions before attempting installation. If you are unsure of any part of the installation process, contact a professional installer for assistance.

The ceiling or mounting surface must be capable of supporting four times the combined weight of the mount and display; otherwise the structure must be reinforced.

Safety gear and proper tools must be used. Failure to do so can result in property damage and/or serious injury.

Follow all instructions and recommendations regarding adequate ventilation and suitable locations for mounting your display. Consult the owner's manual of your display for more information.

TV display should be removed from mount if high winds exceeding 97 kph (60 mph) are expected.

All assembly fasteners and mounting plate attachment to ceiling should be inspected for signs of loosening or damage annually, as well as after any strong wind event. Tighten any loose fasteners. If any damage is observed, remove the mount from service.
