Introduction

Congratulations on your purchase of the TKP-100 In-wall keypad! The TKP-100 is an elegant, single-gang network keypad that blends simplicity and one touch control of your URC Lighting system or URC Whole House Music system.

Features and Benefits

Decora Style In-wall network Keypad:

- Decora Style in-wall keypad accepts all standard Decora style cover plate (not included).

Backlit Buttons with Status Indication for URC Music Control:

- Five standard backlit buttons change to amber, when pressed. If the TKP-100 is configured to control a URC Music System, the "Source Selection" buttons will remain amber to indicate which music source is selected. When the room is turned off, the source button will return to the default state (white).
- One rocker style backlit button changes to amber when pressed, and then returns to its default state when released.

URC Lighting Control and URC Music Control button Two sets included:

- Two sets of buttons are included in the TKP-100 box, to accommodate either URC Lighting applications or URC Music System applications.

Custom Buttons available:

- Custom buttons are available from URC. Consult your URC Certified Dealer for more information.

Available in White, Black and Almond

TKP-100 Button Descriptions

The front panel consists of 6 rows of replaceable buttons. Your whole house custom installer can customize the keypad layout for either music or lighting control.

Music

Lighting

Music Control

To listen to music, simply press the “On” button or a music source, such as Pandora, internet radio or iPod.

To increase or decrease the volume, press the up or down arrow.

Turn off the whole house music by pressing “Off”.

When a button is pressed it blinks orange for as long as the button is held.

Lighting Control

Select one of the scenes. The scene lights up in orange until the room has been brightened or dimmed, or the scene is changed.

Press the up or down arrow to “adjust” the brightness or dimness of the selected room light.

Frequently Asked Questions

Can I change the button layout of my TKP-100 myself?

No, the buttons correspond to the programming done by your URC Certified Dealer. To make any changes to your TKP-100 button layout contact your URC dealer to discuss your request. There may be an additional charge associated with changing button layouts after a TKP-100 has been installed in your system.

I decided I would like to have different button labels added to my TKP-100 keypad, how do I make that happen?

Contact your URC Certified Dealer who can order and install buttons with different labels. There may be an additional charge associated with changing out buttons after a TKP-100 has been installed in your system.

Are "Blank" buttons available for the TKP-100 keypad?

Yes, "Blank" buttons are available through a Certified URC Dealer.

My TKP-100 is not working, or has locked up, what do I do?

You can reset the TKP-100 keypad by pressing and holding the top button and the button at the lower left for five seconds. If resetting the TKP-100 does not solve your problem, contact your Certified URC Dealer for assistance.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one more of the following measures:

- ◆ Reorient or relocate the receiving antenna.
- ◆ Increase the separation between the equipment and receiver.
- ◆ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ◆ Consult the dealer or an experienced radio/TV technician for help.

Warning!

Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

Note: The manufacturer is not responsible for any Radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

FCC Caution

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the authority to operate equipment.
