# TRC-820

## PROGRAMMABLE, WI-FI® UNIVERSAL REMOTE CONTROL

URC®
**Control the Experience.**

## Performance and price like no other

The TRC-820 provides 25 years of URC® control experience packed into one remote control for a remarkable entry price point for home automation. It works with URC's Total Control® system advanced system controllers and provides instant access, monitoring and control for everything from entertainment to lights, security and beyond. With a bright 2-inch color, high resolution LCD screen and fresh, ergonomic design, it looks fantastic in any environment and is user-friendly for everyone. The TRC-820 has the ideal number of hard buttons and can be tailored to suit any user's smart home needs. Everyone can enjoy fast access to cable TV, Blu-ray, DVR, music, temperature adjustments and more.

## Get a real-time view of everything

As a welcome budget-friendly addition to the Total Control family, the TRC-820 offers full, two-way feedback for real-time monitoring— right on the remote's LCD screen. For example, when you press a button, you can see if any programmed actions took place, or you can see what music is currently playing on the patio. Or, see which lights are on or off before adjusting them, and view real-time video on surveillance cameras to see who arrived at the door. Programmable using URC's long-standing software, the TRC-820 is your key to convenient control. This remote also has a Quick Connect Wi-Fi feature which allows you to take control of every situation rapidly and easily. The TRC-820 is a great choice to enjoy a best-in-class remote with the most value-driven, full-featured home automation system on the market.
