

Strong® Projector Ceiling Mount

SM-PROJ2-L-BLK & SM-PROJ2-L-WH

Strong® Mounts – Making Installations Easier and Safer

Snap One's™ revamped Strong Ceiling Projector Mount is manufactured with high-grade steel for improved durability and to support projectors up to 75 pounds. An updated quick-release feature makes future maintenance a breeze.

Adjustable Mounting Arms

To fit as many projectors as possible, the Strong Projector Ceiling Mount features adjustable arms.

Cable Management

Integrated cable management keeps cables and wires concealed and organized for a clean, finished look.

Detachable Mounting Plate

Faster installations and re-installations are possible, all without having to re-align the projector.

Perfect Image 360°

360-degree rotating joint allows for flexibility in angles and viewing ability.

Adjust to Optimal Image

Adjustable support arms with a 19° tilt and 8° swivel ensure your best-projected image.

Durable Strong Support

Manufactured using high-grade steel for durability and support up to 75 pounds.

Beyond Compatible

Using the standard 1.5" NPT pipe size, the SM-PROJ2-L (BL/WH) interface bracket is compatible with various extension poles and ceiling plates already available in Snap One's Strong portfolio.
