### Introducing FSR's expanded line of table box solutions...

The T<sub>3</sub>U RIM Series (Table Top Tilt Up) table boxes.

Designed expressly for applications requiring multiple access boxes within the same table, the FSR T<sub>3</sub>U RIM Series handles data, power, and AV connections in a low profile box.

You can match almost any decor with the T<sub>3</sub>U RIM Series cover finish selection. Colors include Black, brushed Brass, brushed Bronze or brushed Nickel. The T<sub>3</sub>U RIM Series easily installs in any table surface with thickness ranging from a minimum .75" to a maximum of 2.75". In the open position, the T<sub>3</sub>U RIM Series cover protrudes a mere 1.19" from the table top. Under the table, the T<sub>3</sub>U RIM Series extends only 4.25" from the table top surface.

The FSR T<sub>3</sub>U RIM Series offer a variety of connection schemes through the use of interchangeable snap in connectors and mounting plates. This allows the plates to be populated by the installer and can be changed as the need arises. FSR offers a complete line of connectors and plates to satisfy most installation requirements. (See options on the following pages).

**NOTE:** T<sub>3</sub>U-1 and T<sub>3</sub>U-2 models have a 6' NEMA 5-15 SJ cordset. The T<sub>3</sub>U-3 model has a 9' NEMA 5-20 SJ cordset.
