

RF to IR Base Station

OVERVIEW

MRF-260 base station receives RF (Radio Frequency) signals from the Complete Control handheld remote, converts the signal into IR (Infrared) commands and delivers the commands to the integrated A/V components. It uses Narrow Band RF to assure the continuity of the commands and minimize the effect of RFI (Radio Frequency Interference) that often occurs in highly-populated markets.

- RF to IR base station for Complete Control system
- Receives RF signals from handheld remote and converts them into IR commands
- Reliably delivers IR commands to A/V components
- Uses Narrow Band RF to assure the continuity of the commands
- Minimizes the effect of RFI in highly-populated markets
- MRF-260i features 433 MHz frequency for international and highly-populated markets

HIGHLIGHTS

IR	Four adjustable IR outputs, built-in front IR blaster
Antenna	Integrated antenna
Frequency	418 MHz (MRF-260), 433 MHz (MRF-260i)
Indicator LEDs	Power and status
Power	9V-300mA power supply

SPECIFICATIONS

SKU

MRF-260, UPC 656787-300408

MRF-260i, UPC 656787-326019

System

Complete Control™

Professional programming required

In the Box

Base station, flashers, self-adhesive pads, connecting cables, power supply, adjustment tool, mounting hardware

Dimensions

8" W x 1.25" H x 3.5" D

Weight

1.0 lb.

Warranty

1 year limited USA warranty

 914.705.4148
