

Large Conference Room (12-20 Seats)

Description

This 12-20 person full-featured conference room is perfect for companies where group collaboration is essential. It offers easy viewing of Satellite, BluRay and computers on a large front projection screen. A programmable touchscreen remote provides simple one-button operation of the entire system.

Now You See It...

When not in use the motorized screen rolls up, providing access to a whiteboard or simply to tidy up the room's appearance.

Ready When You Are

Projector is mounted to the ceiling and calibrated - no last minute fumbling or adjustments are required to create the perfect presentation.

No Trip Wires

Cables and connections are through the table, not across the floor, and all equipment is securely located in a credenza.

Easy Operation

Walk into the room and press one button on the touchscreen remote to start presenting.

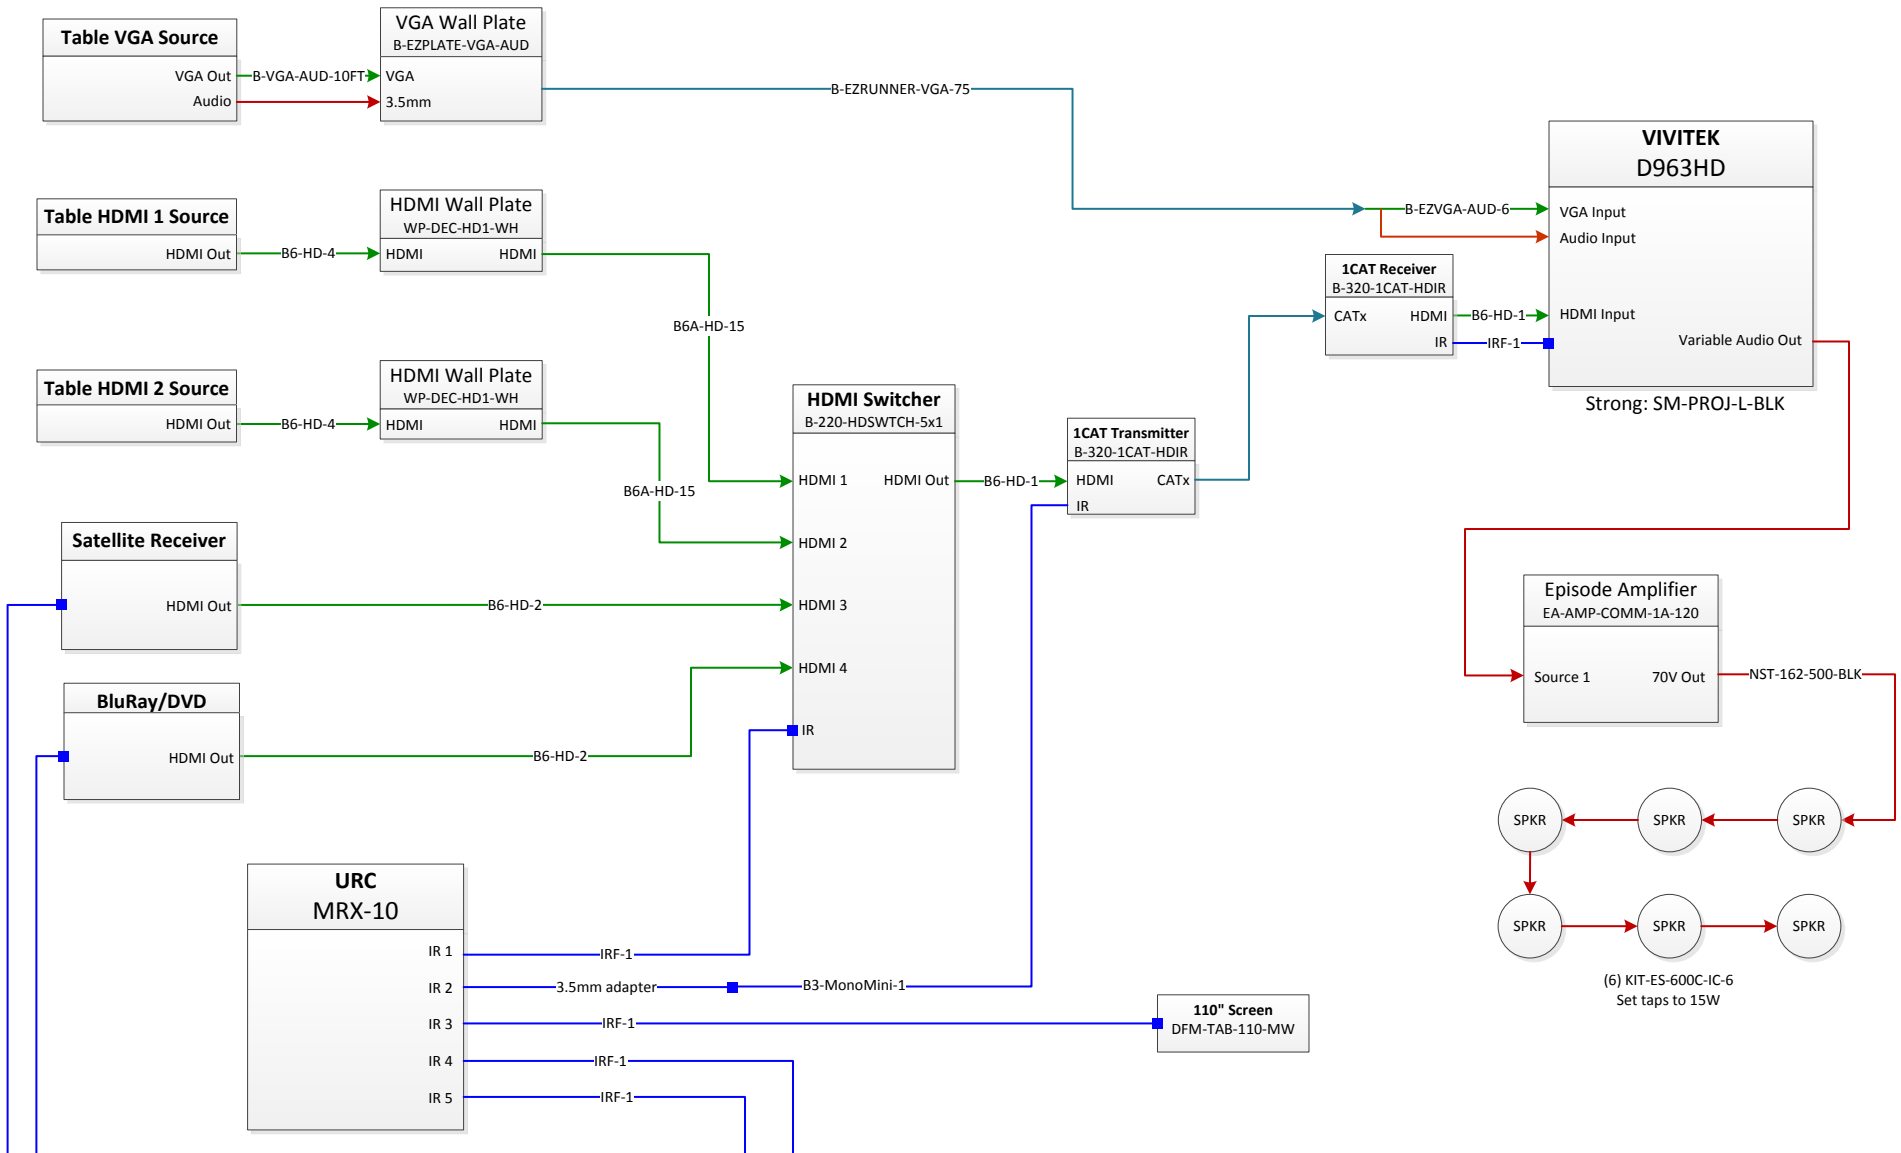

Be Seen & Heard

Video is only half of the presentation. Hear the rest of it clearly through speakers recessed into the ceiling.

Features

- Projector and large motorized screen
- Computer, DVD/BluRay and Satellite sources
- Computer connections hidden inside conference table
- Equipment tucked away in credenza
- Recessed in-ceiling speakers for presentations and videos
- Simple operation using URC's Total Control touchscreen remote

Large Conference Room (12-20 Seats)

Legend

- Audio
- Video
- Control
- Power

Notes:

- Projector throw distance is 12' - 19' for this model and screen size. This may vary depending on screen size and projector model.
