

4 Channel IP Surveillance System Controlled by URC's Total Control

Legend

Notes:

1. Total power consumption of all cameras on POE ports cannot exceed POE power budget of the switch. See IP calculators for more info.
2. All Wirepath IP cameras are POE capable. When used on Ethernet ports that do not supply POE, an injector or external power supply will need to be used.
3. There is a max cable distance limitation of 100m (330') for an Ethernet device.
4. System setup should be done using Internet Explorer on a PC.
