

Dedicated Home Theater System

Description

This dedicated theater system delivers big picture and big sound to create a true cinema experience at home. It takes advantage of a large high-definition projection system to create stellar picture quality and elegantly hide the main speakers from view. A powerful 7.2 channel audio system packs incredible punch from your favorite sources, while custom furniture ensures that everyone has the best seat in the house.

Bigger Is Better

With up to a 120" screen, high definition movies, TV shows and games have never looked better.

Hear the Difference

Premium in-wall speakers are paired with two subwoofers for unsurpassed detail and impact.

Simple Control

Walk into the room and press a single button on the remote to start the show.

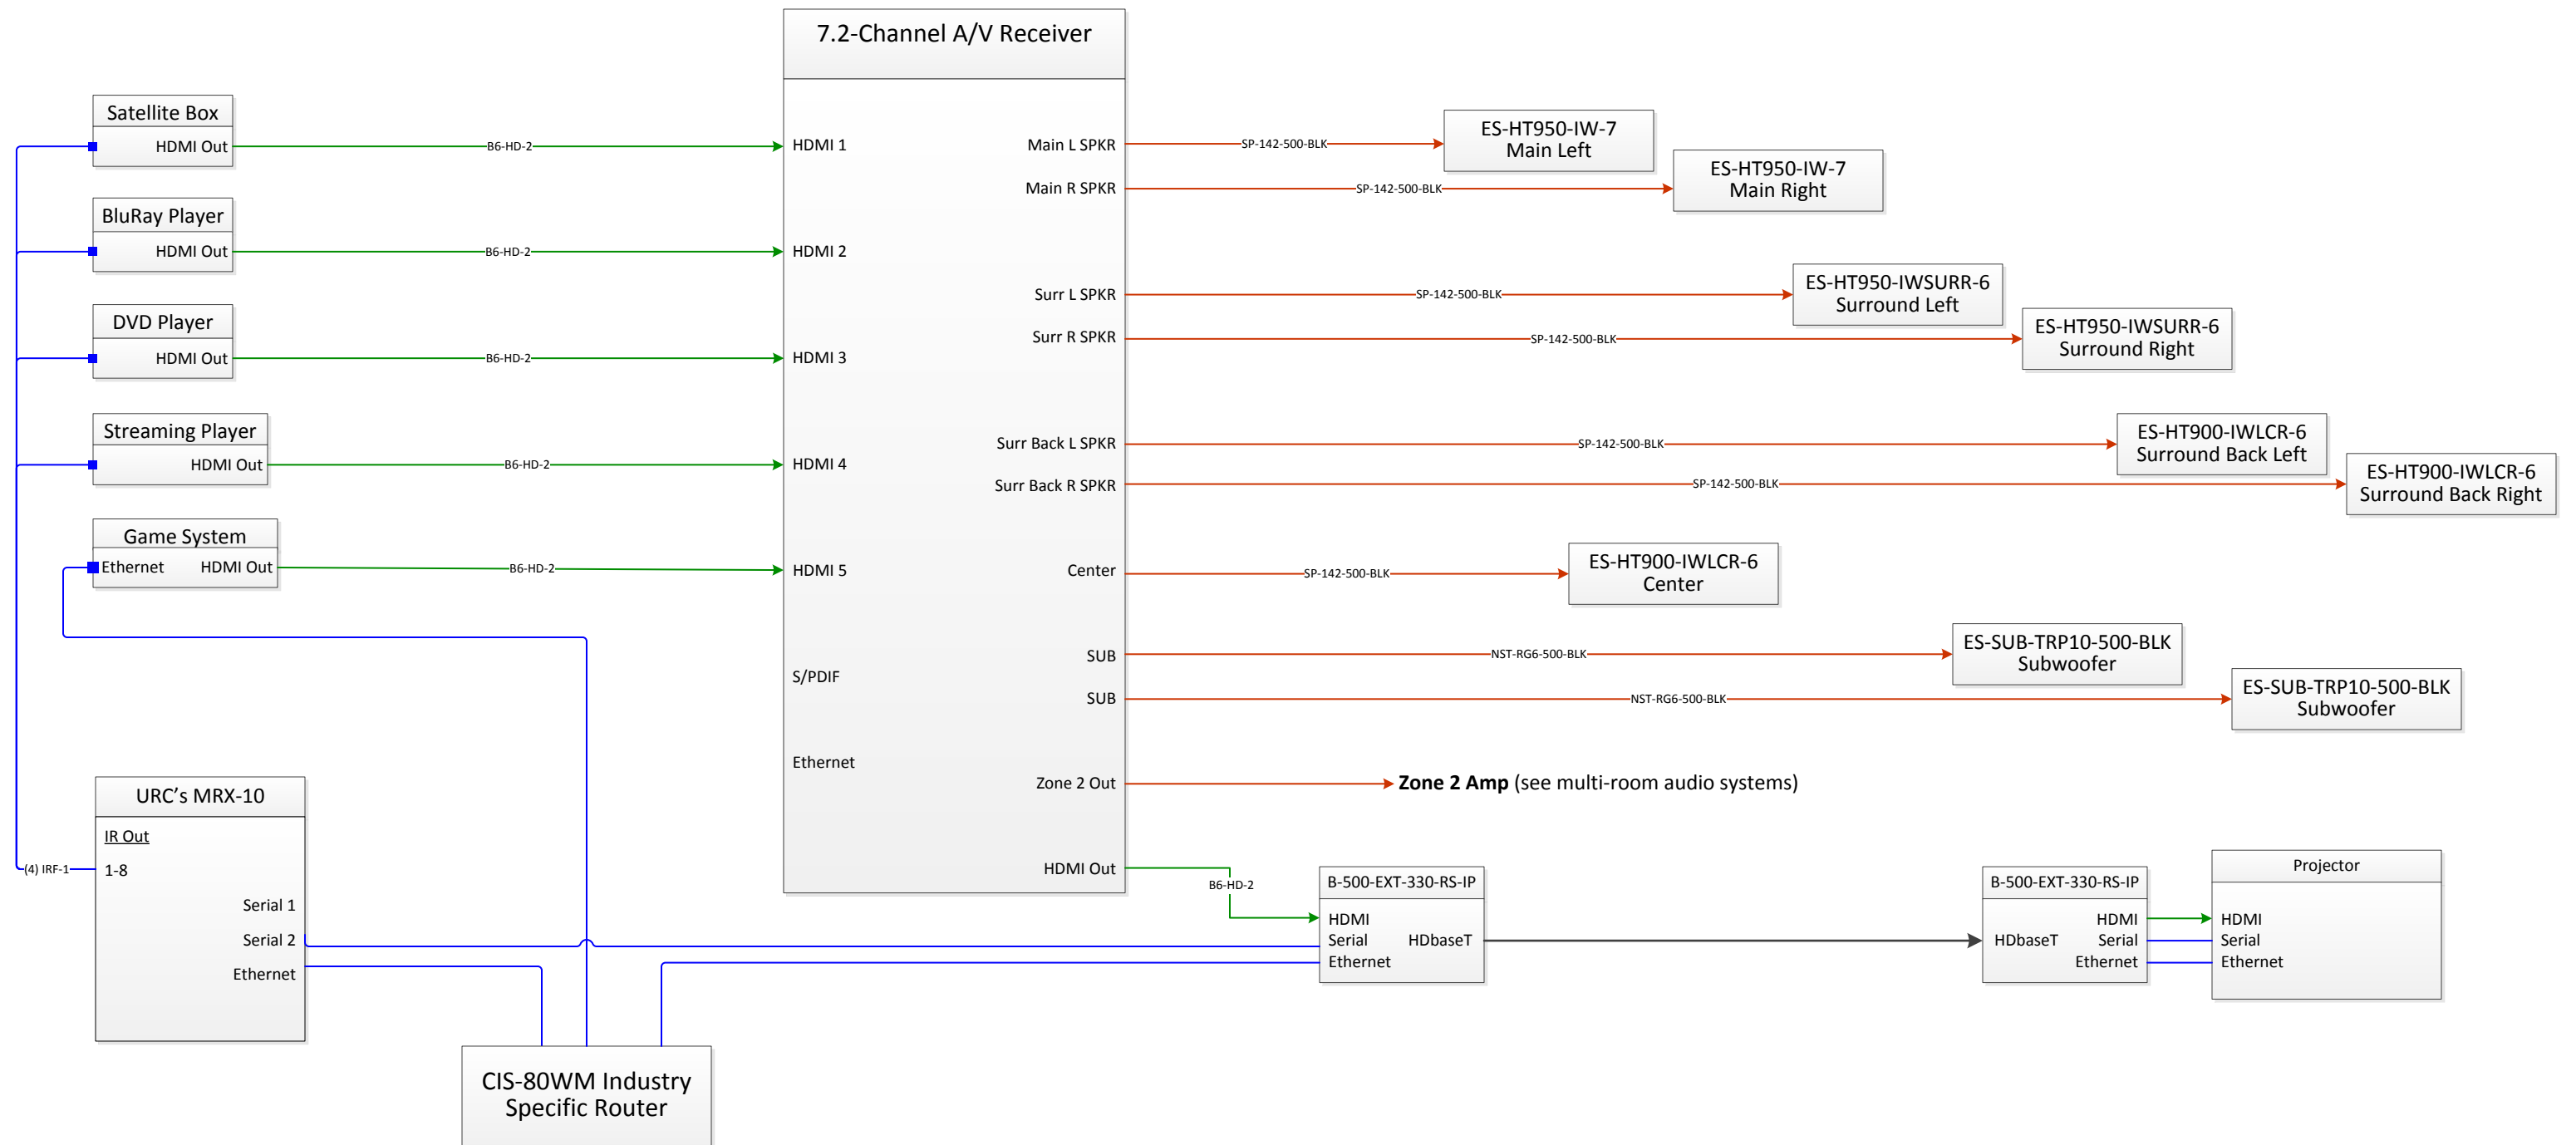

Smooth Operator

Powered theater seating reclines with a button push for the ultimate in comfort and style.

Features

- Projector and large acoustically transparent screen
- Home theater seating with powered reclining
- Premium in-wall speakers and two triple 10" subwoofers
- HDMI Inputs for Satellite, BluRay, DVD, Streaming Player, and Game System
- Products safely tucked away inside equipment rack
- One-button operation using URC's Total Control touchscreen remote

Dedicated Home Theater System

Legend

- Audio
- Video
- Control
- Power

Notes:

1. Premium sound quality from the large in wall speakers.
2. Dual subwoofers decreases standing waves and provides massive impact.
3. The ribbon tweeter in the centre channel must be adjusted to be vertical for proper sound dispersion.
