

# Corporate Training Room

## Description

This system is ideal for training rooms where presentations are given to large groups of employees or clients. It offers a large format projection screen, powerful audio system and microphones for the presenters. Computer connections are conveniently located in the podium, and a programmable touchscreen remote provides simple one-button operation of the entire system.

### No Trip Wires

Cables and connections are at the podium, not across the floor, and all equipment is neatly located inside.

### Easy Operation

Walk into the room and press one button on the touchscreen remote to start presenting.

### Now You See It...

When not in use the motorized screen rolls up, providing access to a whiteboard or simply to tidy up the room's appearance.

### Be Seen & Heard

Hear the presenter clearly using a microphone and speakers recessed into the ceiling.

### Ready When You Are

Projector is mounted to the ceiling and calibrated - no last minute fumbling or adjustments are required to create the perfect presentation.

## Features

- Projector and large motorized screen
- Computer, DVD/BluRay and Satellite sources
- Connections and equipment tucked away inside the podium
- Microphone and recessed in-ceiling speakers for clear audio during presentations and videos
- Simple operation using URC's Total Control touchscreen remote
